Is the Oct 3 call only for CAG chairs & facilitator, or do you want the speakers there too?

Subject: Re: November CAG meeting

Thanks Alice,

For October we have the following topic listed:

Understanding human health and ecological risk assessments and how they are used in decision making

The following additional topics for October were also raised at the September meeting:

- Update on air permitting for the phase 1 removal project
- Presentation on USACE restoration opportunities
- DEC update on communication regarding contaminated sediments during recent flooding.
- DEC update on the planned crab and fish consumption advisory blitz.

Also, Ella has asked for 45 minutes to present a paper they have developed:

Dredged Material Management (DMM) Options: Assessing Human Health and Ecological Benefits

This will be a pretty packed meeting and we should have a pre-call to walk through the agenda and needs for each presentation, How does October 3 look for folks?

thanks
Doug
